

Technical Visit to Keystone Electric Wire and Cable Co. Ltd.

Keystone Electric Wire & Cable Co. Ltd. was established in Hong Kong in 1969, under its previous name Keystone Industrial Co. Ltd. Keystone's main product lines include copper wire, building wires, low and medium voltage power cable, control cable and telecommunication cable.

Currently, Keystone has two factories with a combined area of over 170,000 sq. ft.

This visit has focused on the facilities inside Keystone Cable Manufacturing Facilities.

On September 28, 2013, the IMechE HK Branch organized a technical visit to Keystone Cable Manufacturing Facilities. The technical visit provided a good opportunity to our members and

engineers to understand more about the cable production processing and its associated testing facilities. During the visit, the staff of Keystone Cable Manufacturer introduced fully in the area of cable manufacturing processes, cable material selection, different cable specification and cable testing facilities, all are state-of-the-art.

To the success of this visit, we would like to thank Mr. Yu of Keystone Electric Wire and Cable Co. Ltd. for his outstanding presentation and tour guide for the whole visit.
