

## Technical Visit to Dunwell Waste Oil Recycling Facilities

Established in 1969, Dunwell's name has come to stand for advanced technology, high quality and excellent customer services.

Today, the business portfolio of Dunwell oil and solvent re-refinery, manufacturing, trading and marketing of lubricants, waste water treatment and providing services with environmental-related technologies.

This visit has focused on the facilities inside the Dunwell Waste Oil Recycling Facilities

On November 16, 2013, the IMechE HK Branch organized a technical visit to Dunwell Waste Oil Recycling Facilities. The technical visit provided a good opportunity to our members and engineers to understand more about the waste oil recycling facilities, its recycling processes, waste oil recycling management process, final product detail information, safety facilities and waste oil refining facilities, all are state-of-the art.

To the success of this visit, we would like to thank Miss Pinky Chan and Miss Serena Cheng for her outstanding presentation and tour guide for the whole visit.
